ADVANCED SWISS SUNCARE

Made in Switzerland 

2*6 eye mark

GB Fast-absorbing, non-greasy, non-sticky UVA and UVB (SPF50+) sun protection gel. Helps protect the skin from infrared radiation and blue light. Formulated with lamellar technology - ideal for extreme sun conditions and sensitive skin. • Always apply sun protection generously, 15 to 30 minutes before sun exposure. Any less, radically reduces the protection effect. Even sun protection with high SPF does not grant full protection. Keep babies and young children out of direct sunlight and protect them with a high sun protection factor (≥ SPF30) and appropriate clothing. Avoid midday sun. Generally one application is sufficient but consider another application after extensive sweating, swimming or towel drying. Avoid contact with clothing as direct contact may stain. Avoid contact with the eyes.

DE Schnell einziehendes, nicht fettendes, nicht klebriges UVA und UVB (SPF50+) Sonnenschutzgel. Trägt zum Schutz der Haut vor Infrarotstrahlung und blauem Licht bei. Formuliert mit lamellarer Technologie - ideal für extreme Sonnenbedingungen und sensible Haut. • Sonnenschutz immer 15 bis 30 Minuten vor der Sonnenexposition grosszügig auftragen. Zu gering aufgetragene Mengen reduzieren die Schutzleistung markant. Auch Sonnenschutzprodukte mit hohem Lichtschutzfaktor bieten keinen vollständigen Schutz. Babys und Kleinkinder vor direkter Sonneneinstrahlung schützen und gleichzeitig schützende Kleidung sowie Sonnenschutzmittel mit hohem Lichtschutzfaktor (≥ SPF30) verwenden. Intensive Mittagssonne meiden. Eine Anwendung kann gemäss Ihrem persönlichen Sonnenkonto reichen. Wiederholt auftragen, insbesondere nach intensivem Schwitzen, dem Aufenthalt im Wasser und Abtrocknen. Kontakt mit der Kleidung vermeiden - kann abfärben. Augenkontakt vermeiden.

IT Gel solare con protezione UVA e UVB (SPF50+) a rapido assorbimento, non grasso e non appiccicoso. Aiuta a proteggere la pelle dai raggi infrarossi e dalla luce blu. Formulato con tecnologia lamellare - ideale per condizioni solari estreme e per pelli sensibili. • Applicare la protezione solare abbondantemente 15-30 minuti prima dell'esposizione al sole. Piccole quantità di prodotto riducono significativamente il livello di protezione. Anche le creme solari con indice di protezione molto alto non assicurano una protezione completa. Evitare di esporre neonati e bambini alla luce diretta del sole e proteggerli con un fattore di protezione solare elevato (≥ SPF30) e con un abbigliamento adeguato. Evitare il sole di mezzogiorno. Di norma un'applicazione è sufficiente, si consiglia tuttavia di riapplicare il prodotto specialmente in caso di elevata traspirazione, bagno in mare o in piscina o dopo l'uso dell'asciugamano. Evitare il contatto con i vestiti: il prodotto potrebbe macchiare. Evitare il contatto con gli occhi.

EcoSun Pass approved.

After Sun

Cooling &
moisturising
after sun gel
sensitive skin
with Aquarich®

helps to prevent sun allergies

GB Fast-absorbing, non-greasy, non-sticky liposomal after sun gel with AQUARICH® (long-lasting skin hydration), Glycerin and SOD (a free radical scavenger) to moisturise and soothe for up to 24 hours. Gives an immediate cooling effect but also a long lasting action. Wash away sun protection after sun exposure and apply After Sun as a body lotion.

DE Schnell absorbierendes, nicht fettendes, nicht klebriges, liposomales After Sun Gel mit AQUARICH® (für langanhaltende Feuchtigkeit), Glycerin und SOD (ein Radikalfänger). Spendet bis zu 24 Stunden Feuchtigkeit, sofortiger Cooling-Effekt, langanhaltende Wirkung. Sonnenschutz nach der Sonnenexposition abwaschen und After Sun Produkt wie eine Body Lotion auftragen.

FR Gel après-soleil aux liposomes à absorption rapide, non gras et non collant. Contient de l'AQUARICH® (hydratation durable de la peau), de la glycérine et de la SOD (anti-radicaux libres) pour hydrater et apaiser la peau pendant 24 heures. Effet rafraîchissant immédiat et action durable. Laver écran solaire après l'exposition au soleil et appliqué l'après soleil comme une lotion pour le corps.

IT Dopolose liposomiale, si assorbe velocemente, non unge, non appiccica, con AQUARICH® (idratazione a lunga durata della pelle), glicerina e SOD (un enzima cattura radicali liberi), lenisce la pelle e la idrata fino a 24 ore, con un effetto rinfrescante immediato e prolungato. Lavare protezione solare dopo l'esposizione al sole. Applicare dopo prodotto come una lozione per il corpo.
