Ultimate - Targeted - Relief

A targeted thermal body rub, with a heating infusion of Arnica, Wintergreen Leaf Oil and Black Pepper Seed Oil. This spicy tincture offers traditional therapy with invigorating benefits. Recommended for localised areas of fatigue and tension.

Directions: Apply sparingly to the body on localised, targeted areas such as back, shoulders, neck or calves. Wash hands after use. Allow the warming sensation to develop; an increase in temperature and high colour may appear on the surface of the skin for a short period, which is normal. Avoid delicate, intimate areas. Do not apply to broken skin.
