ORDO

The Hydro Sonic Water Flosser uses the power of hydro-kinetic technology to blast away plaque and food debris from between teeth and along the gum line.

Get better protection against cavities and gum disease, and keep your breath fresher, all while being gentle on your gums.¹

Water flossing is also easier and more effective than manual flossing for cleaning around braces, bridges and implants.

Cleans deeper than brushing alone

On-Demand Mode

Take complete control of your flossing routine with On-Demand functionality.

260ml Tank Capacity

The easy-to-fill tank provides 55 seconds of use without compromising on pressure.

Antimicrobial Technology

Specially treated plastic keeps your flosser cleaner, killing up to 99.5% of bacteria.²

Unique Travel Features

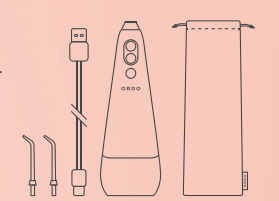

Seamlessly store floss tips in the water tank. Activate the lock mode for travelling.

Satisfaction guaranteed - if you don't love your water flosser within 60 days, we'll give you a full refund.
