Avvertenze e cautele d'uso

Le formule Retinoina, contenenti 4 Retinoidi diversificati, sono state sviluppate per garantire la massima efficacia e sicurezza nell'uso. Tuttavia con l'utilizzo di preparati al retinolo alcuni tipi di pelle potrebbero avvertire un leggero pizzicore che scompare rapidamente grazie anche al preparato emolliente (Emulsione n. 3) che conclude l'applicazione. In caso di pelle particolarmente sensibile si consiglia di distanziare le applicazioni ma concludendo comunque il trattamento di 10 applicazioni. Durante il periodo di utilizzo dei trattamenti contenenti Retinolo è consigliato applicare, al mattino, un filtro solare ad ampio spettro con SPF 30 o superiore per proteggere la pelle.
