

KERAPLEX
INSTANT HAIR REPAIR
KERAPLEX

My Keraplex treatment is a miracle pre-wash hair treatment formulated to help repair, restore and nourish dry, damaged and coloured hair from the inside out. This next generation formulation designed using "intelligent" ingredients such as Keratin, which match the proteins inside your hair to reform the bonds which give your hair strength and structure. Sweet Almond Oil is rich in Vitamins A & E leaving your hair with exceptional shine and softness and a stunning feel after just one treatment.

I've combined my years of expertise and knowledge, both as hairdresser and trichologist to create the My Hair Doctor Keraplex collection. Each product has been specifically formulated using the best scientifically proven active ingredients that completely benefit your hair on a daily basis.

USE: Apply to wet hair pre shampoo, massage through from mid-lengths to ends thoroughly for at least 10 minutes or up to 20 minutes for an intense treatment. Rinse thoroughly and then shampoo and condition with the My Hair Doctor Keraplex range.

CAUTION: Avoid contact with eyes, rinse with water if contact occurs.
