THE KOREAN KONJAC EYE CLEANSING PADS - 6 PACK

The Eco Alternative to Cotton Wool or Wipes

Natural Plant Fibre Reusable cleansing pads for removing make up and cleansing the skin. Designed to help maintain healthy and clean skin around the delicate eye area. Leaves the skin hydrated, bright and refreshed.

Use & Care

The completely reusable Konjac Eye and Make-Up Cleansing Pads are the kindest way to remove make-up and delicately exfoliate the eye area. The water-like circle structure of 100% pure konjac fibres should be saturated under warm water and then gently squeezed. Simply add a small amount of your favourite cleanser or toner. For water-soluble make-up, or no make-up at all, no additional cleansers are required. Rinse well and allow to dry between use. As with all skincare, discontinue if irritation occurs.

Loaded with nature's best, these 100% natural Konjac Plant Fibre Pads give fabulous cleansing & gentle exfoliating results, whilst helping condition the delicate eye area. Suitable for even the most sensitive skin.
