A True Beauty Ritual
Getting the most from your Glycolic Acid Rejuvenating Face Exfoliator

1. Start by washing your face. You should always exfoliate on freshly cleansed skin.
2. Apply and gently exfoliate in upward circular motions. Lightly massage onto face and neck in circular movements, concentrating on the forehead, nose, chin and jawline, avoiding the eye area.
3. Wash your face with warm water, then gently pat dry with a towel. Allow the relaxing scent to soothe the mind and the groundbreaking ingredients to correct imperfections. Lock in moisture with a rich cream or your favorite anti-aging serum before heading to bed. Your mornings will be much brighter and your skin significantly smoother.

*Avant Tips: Fingertip pressure and the gentle friction of the perfectly round micro particles will help slough away dead skin cells, which can lead to blocked pores. Always carry out a 24 hour patch test before the first use. Store in a cool and dry place.
