A True Beauty Ritual

Getting the most from your Blue Volcanic Stone Purifying & Antioxidising Cleansing Gel

1. Apply the cleansing gel using your fingertips directly onto damp skin. Avoid applying the gel directly on a washcloth, as it will absorb too much of the product, causing unnecessary waste.

2. Massage it into skin in a circular motion, rinse well when finished, and then give your skin a final swipe with a facial sponge or a washcloth to ensure makeup, dirt, and oil are thoroughly removed.

3. Although it is essential to cleanse at night, it is just as important to wash your face in the morning to remove any natural oils that built up on your skin while you slept. Plus, you want to gently wash away the products you applied before bed so you start with a clean surface before applying your daytime lotions.

✧ Avant Tips: Cleansing and removing makeup and impurities at night will help keep your skin looking healthy and radiant.

Always carry out a 24 hour patch test before the first use. Store in a cool and dry place.

Sunburn Alert: This product contains an alpha hydroxy acid (AHA) that may increase your skin's sensitivity to the sun and particularly the possibility of sunburn. Use sunscreen, wear protective clothing, and limit sun exposure while using this product and for a week afterwards.
