GB Advanced combination of lamellar tinted broad-spectrum SPF50+ protection with Ectoin®. Helps to protect against infrared radiation and blue light. Restores optimal moisture levels, reduces the appearance of sun-induced ageing (lines, wrinkles, larger pores) and gives skin a natural warm radiance. Features incredibly fast-absorbing, lightweight and non-greasy textures. Ideal for sensitive skin (sun protection and daily care for face, neck and décolleté). **IT** Combinazione avanzata di protezione lamellare colorata ad ampio spettro SPF50+ con Ectoin®. Aiuta a proteggere dai raggi infrarossi e dalla luce blu. Ristabilisce il livello ottimale di idratazione e attenua l'invecchiamento indotto dal sole (rughe, pori dilatati) e conferisce alla pelle una calda luminosità naturale. Ha una consistenza incredibilmente leggera, non grassa e si assorbe rapidamente. Ideale per pelli sensibili (protezione solare e crema da giorno per viso, collo e décolleté).
