

femi daily intimate moisturiser

Femi Daily intimate moisturising gel with natural, Australian Tea Tree Oil to help prevent intimate discomfort.

Apply gel to intimate area and let dry. Do not rinse. Use daily; 1-2 times a day. For external use only.

Femi daily contains gel for 3-5 weeks of daily use.

For severe conditions we recommend using Australian Bodycare femigel® which effectively helps to reduce itching and irritation due to dryness.

We love what we do

For more than 30 years, Australian Bodycare has developed problem-solving skin care of the highest quality. Our products are all based on natural active ingredients carefully selected for their powerful positive effects. The hero of all our products is our natural Australian Tea Tree Oil.

Australian Bodycare has been a front runner in the development and production of skin care products since 1990. Since then, we have adhered to the same ideals that we were founded on: To provide the best problem solving skin and hair products for all, allowing you to focus on the important things in life.
