Apply the sunscreen product before exposure. Re-apply frequently to maintain protection, especially after perspiring, swimming or towelling. Reducing the quantity of sunscreen product applied will lower the level of protection significantly. **(FR)** Ne restez pas trop longtemps au soleil, même si vous utilisez un produit de protection solaire. Ne pas exposer les bébés et les jeunes enfants directement au soleil. Une exposition excessive au soleil est une menace grave pour la santé. Appliquez le produit solaire avant l'exposition. Renouvelez fréquemment l'application pour maintenir la protection, surtout après avoir transpiré, nagé ou vous être essuyé. Réduire la quantité appliquée diminuera considérablement le niveau de protection. **(DE)** Bleiben Sie nicht zu lange in der Sonne, auch wenn Sie ein Sonnenschutzprodukt verwenden. Säuglinge und Kleinkinder nicht direkter Sonneneinstrahlung aussetzen. Übermäßige Sonnenexposition stellt ein ernstes Gesundheitsrisiko dar. Tragen Sie das Sonnenschutzmittel vor dem Aufenthalt in der Sonne auf. Erneuern Sie die Anwendung häufig, insbesondere nach dem Schwitzen, Schwimmen oder Abtrocknen. Eine Verringerung der aufgetragenen Menge verringert den Schutz erheblich. **(IT)** Non restare troppo a lungo al sole, anche se si utilizza un prodotto solare. Tenere neonati e bambini piccoli lontano dalla luce diretta del sole. Un'eccessiva esposizione al sole costituisce un grave rischio per la salute. Applicare il prodotto solare prima dell'esposizione. Riapplicare frequentemente per mantenere la protezione, soprattutto dopo aver sudato, nuotato o asciugato la pelle. Ridurre la quantità di prodotto solare applicata ridurrà significativamente il livello di protezione.
